

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal quarter ended July 2, 2005 Commission file number 1-6770

MUELLER INDUSTRIES, INC.
(Exact name of registrant as specified in its charter)

Delaware 25-0790410
(State or other jurisdiction (I.R.S. Employer
of incorporation or organization) Identification No.)

8285 TOURNAMENT DRIVE, SUITE 150 38125
MEMPHIS, TENNESSEE (Zip Code)
(Address of principal executive offices)

(901) 753-3200
(Registrant's telephone number, including area code)

Indicate by a check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes /X/ No / /

Indicate by check mark whether the Registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act). Yes /X/ No / /

The number of shares of the Registrant's common stock outstanding as of July 25, 2005, was 36,608,491.

MUELLER INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

General

Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. Results of operations for the interim periods presented are not necessarily indicative of results which may be expected for any other interim period or for the year as a whole. This quarterly report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K, including the annual financial statements incorporated therein.

The accompanying unaudited interim financial statements include all normal recurring adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. The six-month period ended July 2, 2005 contained 27 weeks while the six-month period ended June 26, 2004 contained 26 weeks.

Note 1 - Earnings per Common Share and Stock-Based Compensation

Basic per share amounts have been computed based on the average number of common shares outstanding. Diluted per share amounts reflect the increase in average common shares outstanding that would result from the assumed exercise of outstanding stock options, computed using the treasury stock method.

The Company accounts for its stock-based compensation plans using the intrinsic value method prescribed in Accounting Principles Board Opinion (APB) No. 25, "Accounting for Stock Issued to Employees", and related Interpretations. No stock-based employee compensation expense is reflected in net income because the exercise price of the Company's incentive employee stock options equals the market price of the underlying stock on the date of grant. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value

recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123, "Accounting for Stock-Based Compensation", to stock-based employee compensation.

</TABLE>

Note 2 - Commitments and Contingencies

The Company is involved in certain litigation as either plaintiff or defendant as a result of claims that have arisen in the ordinary course of business which management believes will not have a material effect on the Company's financial condition or results of operations.

-10-

The Company has been named as a defendant in several purported class action complaints brought by direct and indirect purchasers alleging anticompetitive activities with respect to the sale of copper plumbing tubes in the United States. Two such purported class actions were filed in

the United States District Court for the Western District of Tennessee (the Federal Actions), four were filed in the Superior Court of the State of California, County of San Francisco (the California Actions), one was filed in the Circuit Court for Shelby County, Tennessee (the Tennessee Action), and one was filed in the Superior Court of the Commonwealth of Massachusetts, County of Middlesex (the Massachusetts Action, and with the Federal Actions, the California Actions and the Tennessee Action, the Actions). Wholly owned Company subsidiaries, WTC Holding Company, Inc., Deno Holding Company, Inc., and Mueller Europe Ltd. are named in all of the Actions, and Deno Acquisition Eurl is named in two of the Actions. All of the Actions, which are similar, seek declaratory (except for the Massachusetts Action) and monetary relief. Plaintiffs' motions to consolidate and for appointment of lead counsel in the Federal Actions and plaintiffs' motion to consolidate the California Actions have been granted. On July 6, 2005, a motion to dismiss the Federal Actions for failure to state a claim was granted as to WTC Holding Company, Inc. and Deno Holding Company, Inc. and denied as to Mueller Industries, Inc. Mueller Europe's motion to dismiss the Federal Actions for lack of personal jurisdiction is pending. The Company has not yet been required to respond to the complaints in the California, Tennessee, and Massachusetts Actions. The Company believes that the claims for relief in the Actions are without merit and intends to defend the Actions vigorously.

Guarantees, in the form of letters of credit, are issued by the Company generally to guarantee the payment of insurance deductibles, retiree health benefits, and certain operating costs of a foreign subsidiary. The terms of the Company's guarantees are generally one year but are renewable annually as required. The maximum potential amount of future payments the Company could have been required to make under its guarantees at July 2, 2005 was \$10.4 million.

Note 3 - Impairment Charge

During the first quarter of 2004, the Company recognized a \$3.9 million impairment charge related to its subsidiary, Overstreet-Hughes Co., Inc., of which \$2.3 million was goodwill and the remainder was property, plant, and equipment. The results of Overstreet-Hughes, which manufactures tubular components and assemblies primarily for the original equipment manufacturer (OEM) air-conditioning market, had not met expectations. Furthermore, Overstreet-Hughes' primary customer announced the closure of its facility that consumes the majority of Overstreet-Hughes' output. Consequently, the Company reduced its carrying cost in these long-lived assets to its best estimate of fair value. This estimate was determined based on a discounted cash flow method.

Note 4 - Industry Segments

Summarized segment information is as follows:

<TABLE>

Unallocated expenses	(9,115)	(8,775)
	-----	-----
	\$ 52,502	\$ 63,086
	=====	=====

</TABLE>

Operating income for the Industrial Products Division was reduced by a \$3.9 million impairment charge during the six months ended June 26, 2004.

-12-

Note 5 - Comprehensive Income

Comprehensive income is as follows:

	For the Quarter Ended	
	July 2, 2005	June 26, 2004
	(In thousands)	
<S>	<C>	<C>
Comprehensive income:		
Net income	\$ 17,183	\$ 27,048
Other comprehensive income (loss):		
Cumulative translation adjustments	(3,427)	228
Change in the fair value of derivatives	(36)	182
	-----	-----
	\$ 13,720	\$ 27,458
	=====	=====

<CAPTION>

	For the Six Months Ended	
	July 2, 2005	June 26, 2004
	(In thousands)	
<S>	<C>	<C>
Comprehensive income:		
Net income	\$ 32,391	\$ 45,008
Other comprehensive income (loss):		
Cumulative translation adjustments	(5,734)	2,189
Change in the fair value of derivatives	92	37
	-----	-----
	\$ 26,749	\$ 47,234
	=====	=====

</TABLE>

The change in cumulative foreign currency translation adjustment primarily relates to the Company's investment in its U.K., Mexican, and Canadian subsidiaries and fluctuations in exchange rates between their local currencies and the U.S. dollar. During the first half of 2005, the value of the British pound sterling decreased 8.1 percent compared to the U.S. dollar, the value of the Canadian dollar decreased 0.9 percent compared to the U.S. dollar, and the value of the Mexican peso increased 3.6 percent compared to the U.S. dollar.

Note 6 - Employee Benefits

The Company sponsors several qualified and nonqualified pension plans and other postretirement benefit plans for certain of its employees. The net periodic benefit (income) cost is based on estimated values provided by independent actuaries. The components of net periodic benefit (income) cost are as follows:

<TABLE>

	-----	-----
Net periodic benefit cost	\$ 394	\$ 406
	=====	=====

</TABLE>

The Company previously disclosed in its financial statements for the year ended December 25, 2004, that it expected to contribute approximately \$1.3 million to its pension plans and approximately \$0.8 million to its other postretirement benefit plans in 2005. The Company now anticipates contributions to its pension plans for the year to be approximately \$2.4 million. During the first six months of 2005, \$1.2 million of contributions have been made to certain pension plans and \$0.4 million of contributions have been made to other postretirement benefit plans.

Note 7 - Acquisitions and Investments

On December 14, 2004, the Company acquired shares in seven companies and inventory of another (collectively Mueller Comercial) for an aggregate of \$42.3 million, subject to closing adjustments, including \$3.0 million for a contingent earn-out payment held in escrow. These operations include pipe nipple manufacturing in Mexico and import distribution businesses which product lines include malleable iron fittings and other plumbing specialties. The combined sales of Mueller Comercial are approximately \$60 million annually.

This acquisition was accounted for using the purchase method of accounting. The purchase price of Mueller Comercial has been preliminarily allocated to the acquired assets based on their estimated fair market value

awaiting additional information including appraisals of long-lived assets. Final allocations to the acquired assets and liabilities assumed, as well as resolution of the contingent earn-out and the ultimate resolution of closing adjustments to the purchase price, will result in future adjustments to goodwill.

During the first quarter of 2004 the Company recorded a \$2.3 million provision for certain federal income tax audit exposures related to the Company's equity investment Conbraco Industries, Inc. Upon resolution of these matters in the second quarter of 2005, the Company reversed the provision, which increased net income by approximately \$1.5 million, or 4 cents per diluted share.

Note 8 - Recently Issued Accounting Standards

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123(R), "Share-Based Payment", which is a revision of SFAS No. 123 and supersedes APB No. 25. SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant, and to be expensed over the applicable vesting period. Pro forma disclosure of the income statement effects of share-based payments is no longer an alternative. SFAS No. 123(R) provides alternative methods of adoption which include prospective application and a modified retroactive application. The Company is currently evaluating the financial impact, including the available alternatives of adoption, of SFAS No. 123(R). SFAS No. 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after adoption. While the Company cannot estimate what those amounts will be in the future (because they depend on, among other things, when employees exercise stock options),

-15-

the amount of operating cash flows recognized in the year ending December 25, 2004 for such excess tax deductions was \$31.8 million. The amount of income tax benefit from exercise of stock options recognized in the first half of 2005 and 2004 was \$0.5 million and \$9.7 million, respectively. The Company is required to adopt the provisions of SFAS No. 123(R) effective as of the beginning of the first quarter of 2006.

Note 9 - Environmental Reserves

The Company is subject to normal environmental standards imposed by federal, state, local, and foreign environmental laws and regulations. At July 2, 2005, the Company had \$9.2 million reserved for the environmental remediation, post-closure monitoring, and related obligations. The Company periodically reassesses these amounts and estimates its obligations over the foreseeable future based upon results on ongoing remediation and monitoring programs, communications with regulatory agencies, and changes in environmental law. While additional costs are possible, the Company believes that its reserve is adequate and amounts beyond that are not reasonably estimable. Costs of future expenditures for environmental remediation obligations are not discounted to their present value. Accrued environmental liabilities are not reduced by potential insurance reimbursements. Based upon information currently available, management believes that the outcome of pending environmental matters will not materially affect the overall financial position and results of operations of the Company.

Note 10 - Income Taxes

The Company's effective tax rate for the first half of 2005 was 31.6 percent compared with 32.3 percent for the same period of last year. The current period rate is less than the expected federal rate due primarily to income in foreign jurisdictions that is taxed at rates lower than the U.S. federal rate and reductions to valuation reserves, totaling approximately \$1.2 million, related to the resolution of certain income tax exposures and the recognition of U.K. net operating loss carryforwards.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General Overview

Mueller Industries, Inc. is a leading manufacturer of copper tube and fittings; brass and copper alloy rod, bar, and shapes; aluminum and brass forgings; aluminum and copper impact extrusions; plastic fittings and valves; refrigeration valves and fittings; and fabricated tubular products. The Company also resells imported brass and plastic plumbing valves, malleable iron fittings, steel nipples, faucets, and plumbing specialty products. Mueller's operations are located throughout the United States, and in Canada, Mexico, and Great Britain.

The Company's businesses are managed and organized into two segments: Standard Products Division (SPD) and Industrial Products Division (IPD). SPD manufactures and sells copper tube, copper and plastic fittings, and valves. Outside of the United States, SPD manufactures and sells copper tube in Europe. SPD sells these products to wholesalers in the HVAC (heating, ventilation, and air-conditioning), plumbing, and refrigeration markets, to distributors to the manufactured housing and recreational vehicle industries, and to building material retailers. IPD manufactures and sells brass and copper alloy rod, bar, and shapes; aluminum and brass forgings; aluminum and copper impact extrusions; refrigeration valves and fittings; fabricated tubular products; and gas valves and assemblies. IPD sells its products primarily to original equipment manufacturers (OEMs), many of which are in the HVAC, plumbing, and refrigeration markets.

New housing starts and commercial construction are important determinants of the Company's sales to the HVAC, refrigeration and plumbing markets because the principal end use of a significant portion of the Company's products is in the construction of single and multi-family housing and commercial buildings. Repairs and remodeling projects are also important drivers of underlying demand for these products.

Profitability of certain of the Company's product lines depends upon the "spreads" between the cost of raw material and the selling prices of its completed products. The open market prices for copper cathode and scrap, for example, influence the selling price of copper tubing, a principal product manufactured by the Company. The Company attempts to minimize the effects on profitability from fluctuations in material costs by passing through these costs to its customers. The Company's earnings and cash flow are dependent upon these spreads that fluctuate based upon market conditions.

Earnings and profitability are also subject to market trends such as substitute products and imports. Plastic plumbing systems are the primary substitute product; these products represent an increasing share of consumption. Imports of copper tubing from Mexico have increased in recent years, although U.S. consumption is still predominantly supplied by U.S. manufacturers.

Results of Operations

During the second quarter of 2005, the Company's net sales were \$410.5 million, which compares with net sales of \$380.8 million over the same period of 2004. Net sales were \$812.2 million in the first half of 2005 compared with \$726.8 million in the same period of 2004. The increase in net sales is attributable to higher selling prices and acquired businesses, offset by lower volume. The average price of copper was approximately 22 percent higher in the first half of 2005 compared with the same period of 2004. During the second quarter of 2005, the Company's core manufacturing businesses shipped 182.2 million pounds of product compared to 198.5 million pounds in the same quarter of 2004. The Company shipped 371.6 million pounds of product in the first half of 2005 compared with 396.1 million in the same period of 2004. This decrease was due primarily to lower copper tube shipments.

Cost of goods sold increased from \$303.7 million in the second quarter of 2004 to \$345.7 million in the same period of 2005. This increase was primarily attributable to higher material costs. Gross profit decreased to \$64.8 million from \$77.1 million due primarily to lower shipments and lower margins on copper tube. Inventories valued using the LIFO method totaled \$33.4 million at July 2, 2005 and \$36.5 million at December 25, 2004. At July 2, 2005 and December 25, 2004, the approximate FIFO cost of such inventories was \$67.7 million and \$64.4 million, respectively.

Depreciation and amortization expense was \$10.4 million in the second quarter of 2005 compared with \$10.2 million during the second quarter of 2004. Selling, general, and administrative expense was \$29.1 million for the second quarter of 2005 compared with \$28.2 million for the same period of 2004. Year-to-date selling, general, and administrative expense was \$59.5 million for 2005 compared with \$54.9 million for the same period of 2004. The increase is primarily attributable to businesses acquired in the latter half of 2004.

During the first quarter of 2004, the Company recognized a \$3.9 million impairment charge related to its subsidiary, Overstreet-Hughes Co., Inc., of which \$2.3 million was goodwill and the remainder was property, plant, and equipment. The results of Overstreet-Hughes, which manufactures tubular components and assemblies primarily for the OEM air-conditioning market, had not met expectations. Furthermore, Overstreet-Hughes' primary customer announced the closure of its facility that consumes the majority of Overstreet-Hughes' output. Consequently, the Company reduced its carrying cost in these long-lived assets to its best estimate of fair value. This estimate was determined based on a discounted cash flow method.

For the second quarter of 2005, operating income at SPD was \$23.2 million which compares with \$37.2 million in the same period of 2004. This decrease is primarily attributable to reduced profitability in copper tube as a result of lower volumes and narrowed spreads, partially offset by contributions of acquired businesses.

Operating income at IPD was \$7.3 million in the second quarter of 2005 compared with \$6.3 million in the second quarter of 2004. Profitability reductions in the brass rod business due to lower volumes and spreads were offset by improvements in other product lines.

-18-

Interest expense for the second quarter of 2005 totaled \$4.8 million, compared with \$0.2 million for the same period of 2004. For the first half of 2005, interest expense was \$9.9 million compared with \$0.4 million for the same period of 2004. The increase in the second quarter and first half of 2005 is primarily attributable to the Subordinated Debentures issued as part of the Special Dividend during the fourth quarter of 2004.

Other income, net was \$4.8 million for the first half of 2005 and \$3.8 million for the same period of 2004. During the first quarter of 2004, the Company completed the sale of certain undeveloped land that resulted in recognizing a gain of \$5.2 million. The proceeds realized from sale were \$5.2 million. Also during the first quarter of 2004, the Company recognized a \$3.3 million loss related to its equity interest in Conbraco Industries, Inc. The loss related primarily to certain federal income tax audit exposures of Conbraco that were assessed during the first quarter of 2004; Conbraco settled these matters in the second quarter of 2005 and, consequently, the Company reversed a loss accrual that resulted in a \$2.3 million gain.

The Company's effective tax rate for the first half of 2005 was 31.6 percent compared with 32.3 percent for the same period of last year. The current period rate is less than the expected federal rate due primarily to income in foreign jurisdictions that is taxed at rates lower than the U.S. federal rate and reductions to valuation reserves, totaling approximately \$1.2 million, related to the resolution of certain income tax exposures and the recognition of U.K. net operating loss carryforwards. The lower rate in the first quarter of 2004 is primarily attributable to the recognition of a capital loss carryforward related to the sale of land that had a tax basis significantly less than the realized proceeds.

Liquidity and Capital Resources

Cash provided by operating activities in the first half of 2005 totaled \$34.5 million, which is primarily attributable to net income, depreciation and amortization, and an increase in liabilities partially offset by increased receivables and increased inventories. Fluctuations in the cost of copper and other raw materials affect the Company's liquidity. Changes in material costs directly impact components of working capital, primarily inventories and accounts receivable. During the first half of 2005, the average COMEX copper price was approximately \$1.50 per pound, which represents a 22 percent increase over the average price during the

first half of 2004. This rise in the price of cathode has also resulted in sharp increases in the open market price for copper scrap and, to a lesser extent, the price of brass scrap.

During the first half of 2005, cash used for investing activities was \$8.3 million, consisting primarily of \$8.9 million for capital expenditures reduced by \$0.6 million proceeds from sales of properties. The Company also used \$4.0 million for financing activities during the first half, consisting primarily of the payment of dividends, partially offset by the proceeds from stock option exercises.

-19-

During the first quarter of 2004, the Chairman of the Company's Board of Directors, Mr. Harvey L. Karp, exercised options to purchase 900,000 shares of Company stock. As provided in Mr. Karp's option agreement, the Company withheld the number of shares, at their fair market value, sufficient to cover the minimum withholding taxes incurred by the exercise. These shares withheld have been classified as acquisition of treasury stock on the Company's Consolidated Statement of Cash Flows. The income tax benefit of \$9.7 million from the exercise of stock options was recognized as a direct addition to additional paid-in-capital and, therefore, had no effect on the Company's earnings.

The Company has a \$150 million unsecured line-of-credit (Credit Facility) which expires in November 2007. At July 2, 2005, there were no outstanding borrowings under the Credit Facility. Approximately \$10.3 million in letters of credit were backed by the Credit Facility at the end of the quarter. At July 2, 2005 the Company's total debt was \$315.2 million or 46 percent of its total capitalization.

Covenants contained in the Company's financing obligations require, among other things, the maintenance of minimum levels of working capital, tangible net worth, and debt service coverage ratios. At July 2, 2005, the Company was in compliance with all of its debt covenants.

The Company declared and paid a regular quarterly cash dividend of ten cents per common share in the first and second quarters of 2005. Payment of dividends in the future is dependent upon the Company's financial condition, cash flows, capital requirements, earnings, and other factors. On May 1, 2005 the Company began making semi-annual interest payments of approximately \$9.2 million on its 6% Subordinated Debentures.

Management believes that cash provided by operations and currently available cash of \$69.1 million will be adequate to meet the Company's normal future capital expenditures and operational needs. The Company's current ratio was 2.5 to 1 at July 2, 2005.

The Company's Board of Directors has authorized the repurchase until October 2005 of up to ten million shares of the Company's common stock through open market transactions or through privately negotiated transactions. The Company has no obligation to purchase any shares and may cancel, suspend, or extend the time period for the purchase of shares at any time. Any purchases will be funded primarily through existing cash and cash from operations. The Company may hold any shares purchased in treasury or use a portion of the repurchased shares for employee benefit plans, as well as for other corporate purposes. Through July 2, 2005, the Company has repurchased approximately 2.4 million shares under this authorization.

-20-

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in raw material costs, energy costs, and foreign currency exchange. To reduce such risks, the Company may periodically use financial instruments. All hedging transactions are authorized and executed pursuant to policies and procedures. Further, the Company does not buy or sell financial instruments for trading purposes.

Cost and Availability of Raw Materials and Energy

Copper and brass represent the largest component of the Company's variable costs of production. The cost of these materials is subject to global market fluctuations caused by factors beyond the Company's control. Significant increases in the cost of metal, to the extent not reflected in prices for the Company's finished products, or the lack of availability could materially and adversely affect the Company's business, results of operations and financial condition.

The Company occasionally enters into forward fixed-price arrangements with certain customers. The Company may utilize forward contracts to hedge risks associated with forward fixed-price arrangements. The Company may also utilize forward contracts to manage price risk associated with inventory. Gains or losses with respect to these positions are deferred in stockholders' equity as a component of comprehensive income and reflected in earnings upon the sale of inventory. Periodic value fluctuations of the contracts generally offset the value fluctuations of the underlying fixed-price transactions or inventory. During the second quarter, the Company entered into forward contracts to purchase approximately \$1.1 million of copper. As of July 2, 2005, the Company held open forward contracts to purchase approximately \$1.2 million of copper through December 2005.

Futures contracts may also be used to manage price risk associated with natural gas purchases. Gains and losses with respect to these positions are deferred in stockholders' equity as a component of comprehensive income and reflected in earnings upon consumption of natural gas. Periodic value fluctuations of the contracts generally offset the value fluctuations of the underlying natural gas prices. At July 2, 2005, the Company had no open forward contracts to purchase natural gas.

Foreign Currency Exchange Rates

Foreign currency exposures arising from transactions include firm commitments and anticipated transactions denominated in a currency other than an entity's functional currency. The Company and its subsidiaries generally enter into transactions denominated in their respective functional currencies. Foreign currency exposures arising from transactions denominated in currencies other than the functional currency are not material; however, the Company may utilize certain forward fixed-rate contracts to hedge such transactional exposures. Gains and losses with respect to these positions are deferred in stockholders' equity as a component of comprehensive income and reflected in earnings upon collection of receivables. At July 2, 2005, the Company had no open forward contract to exchange foreign currency.

-21-

The Company's primary foreign currency exposure arises from foreign-denominated revenues and profits and their translation into U.S. dollars. The primary currencies to which the Company is exposed include the Canadian dollar, the British pound sterling, the Euro, and the Mexican peso. The Company generally views as long-term its investments in foreign subsidiaries with a functional currency other than the U.S. dollar. As a result, the Company generally does not hedge these net investments.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure information required to be disclosed in Company reports filed under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

The Company's management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective.

There were no changes in the Company's internal control over financial reporting during the Company's fiscal quarter ending July 2, 2005, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company has identified deficiencies in the internal controls over financial reporting of the business (currently known as Mueller Comercial) acquired by the Company in December 2004. While the Company's assessment of these internal controls and procedures is continuing, at this time the Company intends to change such controls by, among other things, (i) preparing monthly financial statements on a timely basis, (ii) implementing routine preventative and detective control procedures and (iii) implementing additional disclosure controls and procedures. In addition to these modifications, accounting and finance staff resources will be increased at these operations. In light of the relative size and magnitude of Mueller Comercial to the Company's consolidated financial statements, the Company does not believe that the deficiencies identified have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

-22-

Part II. Other Information

Item 1. Legal Proceedings

Copper Tube Antitrust Litigation

The Company has been named as a defendant in several purported class action complaints brought by direct and indirect purchasers alleging anticompetitive activities with respect to the sale of copper plumbing tubes in the United States. Two such purported class actions were filed in the United States District Court for the Western District of Tennessee (the Federal Actions), four were filed in the Superior Court of the State of California, County of San Francisco (the California Actions), one was filed in the Circuit Court for Shelby County, Tennessee (the Tennessee Action), and one was filed in the Superior Court of the Commonwealth of Massachusetts, County of Middlesex (the Massachusetts Action, and with the Federal Actions, the California Actions and the Tennessee Action, the Actions). Wholly owned Company subsidiaries, WTC Holding Company, Inc., Deno Holding Company, Inc., and Mueller Europe Ltd. are named in all of the Actions, and Deno Acquisition Eurl is named in two of the Actions. All of the Actions, which are similar, seek declaratory (except for the Massachusetts Action) and monetary relief. Plaintiffs' motions to consolidate and for appointment of lead counsel in the Federal Actions and plaintiffs' motion to consolidate the California Actions have been granted. On July 6, 2005, a motion to dismiss the Federal Actions for failure to state a claim was granted as to WTC Holding Company, Inc. and Deno Holding Company, Inc. and denied as to Mueller Industries, Inc. Mueller Europe's motion to dismiss the Federal Actions for lack of personal jurisdiction is pending. The Company has not yet been required to respond to the complaints in the California, Tennessee, and Massachusetts Actions. The Company believes that the claims for relief in the Actions are without merit and intends to defend the Actions vigorously.

Other Matters

The Company is aware of investigations of competition in markets in which it participates, or has participated in the past, in Europe and Canada. The Company has not been fined as a result of any such investigations and does not anticipate any material adverse effect on its business or financial condition as a result of those other investigations.

Item 4. Submission of Matters to a Vote of Security Holders

On May 5, 2005, the Company held its Annual Meeting of Stockholders at which three proposals were voted upon: (i) the election of directors, (ii) the approval of the Mueller Industries, Inc. annual bonus plan and (iii) the approval of the appointment of independent auditors. The following persons were duly elected to serve, subject to the Company's Bylaws, as Directors of the Company until the next Annual Meeting, or until election and qualification of their successors:

	Votes in Favor	Votes Withheld
Alexander P. Federbush	32,900,732	690,422
Gennaro J. Fulvio	31,041,319	2,549,835
Gary S. Gladstein	31,042,213	2,548,941
Terry Hermanson	31,045,619	2,545,535
Robert B. Hodes	30,508,527	3,082,627
Harvey L. Karp	30,628,238	2,962,916
William D. O'Hagan	30,925,344	2,665,810

The proposal to approve the annual bonus plan was ratified by 31,872,655 votes in favor, 1,526,913 votes against, and 191,586 votes abstaining.

The proposal to approve the appointment of Ernst & Young LLP as the Company's independent auditors was ratified by 32,722,309 votes in favor, 849,979 votes against, and 18,866 votes abstaining.

There were no broker non-votes pertaining to these proposals.

EXHIBIT INDEX

Exhibits	Description
19.1	Mueller Industries, Inc.'s Quarterly Report to Stockholders for the quarter ended July 2, 2005. Such report is being furnished for the information of the Securities and Exchange Commission only and is not to be deemed filed as part of this Quarterly Report on Form 10-Q.
31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

To Our Stockholders, Customers, and Employees

Mueller's net income for the second quarter was \$17.2 million, or 46 cents per diluted share, compared with \$27.0 million, or 73 cents per diluted share for the same quarter of 2004. Our current period results include \$4.8 million of interest expense due primarily to the Subordinated Debentures that we issued late last year.

Second quarter net sales were \$410.5 million, compared with net sales of \$380.8 million for the second quarter of 2004. This increase in sales was attributable to rising raw material costs as well as the contribution of recently acquired businesses (Vemco and Mueller Comercial SA), offset by lower volumes. Margins in our copper tube and brass rod businesses were effected by the significant rise in the cost of copper. The increase averaged approximately 30 cents per pound for the quarter compared with the same quarter last year. Competitive market conditions did not allow us to recoup much of this increase. In addition, the volatile copper market caused some of our customers to scale back their purchases. Despite the above, the tube and rod businesses remained profitable. Thus far, in July, we have seen a recovery in copper tube margins to more normal levels, and consequently our business outlook is positive.

Mueller's financial position remains sound. We ended the quarter with \$69 million of cash on hand. Also, the Company declared and paid its regular quarterly cash dividend of ten cents per common share during the second quarter.

Our Annual Stockholders' Meeting was held at Mueller's headquarters in Memphis, Tennessee on May 5, 2005. The stockholders elected Messrs. Federbush, Fulvio, Gladstein, Hermanson, Hodes, Karp, and O'Hagan as directors, and approved the appointment of Ernst & Young LLP as our independent registered public accounting firm.

Sincerely,

/s/Harvey L. Karp
Harvey L. Karp
Chairman of the Board

/s/William D. O'Hagan
William D. O'Hagan
President and Chief Executive Officer

CERTIFICATION

I, William D. O'Hagan, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Mueller Industries, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)), for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
