**Description** 

#### Mueller Industries, Inc. Reports Third Quarter 2014 Earnings

MEMPHIS, Tenn., October 21, 2014 -- Mueller Industries, Inc. (NYSE: MLI) announced today net income of \$23.8 million, or 42 cents per diluted share, for the third quarter of 2014. This compares with net income of \$19.5 million, or 35 cents per diluted share, earned from normal operations in the third quarter of 2013. During the third quarter of 2013, the Company reported an additional after-tax net gain of \$20.3 million, or 36 cents per diluted share, related to non-recurring items.

Net sales for the third quarter were \$602.8 million compared with \$528.9 million for the same quarter in 2013. The growth in net sales was driven by unit volume increases of 16.6 percent, of which two thirds came from acquisitions; partially offset by the decline in copper values year-over-year.

Financial highlights for the quarter:

- Results include \$1.1 million of severance and other charges related to the ongoing reorganization of the acquired Yorkshire Copper Tube business.

- Quarter ending cash totaled \$259.9 million equal to \$4.57 per share.
- Stockholders' equity was \$774.6 million equal to a book value per share of \$13.62.
- Debt to total capitalization was 23.1 percent and the current ratio was 4.0 to 1.

Regarding the outlook, Greg Christopher, CEO said, "In the third quarter, continued signs of increased activity in the private non-residential construction segment are encouraging. This is a welcome development as past experience shows that once this segment gains momentum, it tends to persist.

"Furthermore the residential segment of our business continues to idle along while improving at a modest pace, with housing starts likely to remain under one million units in 2014. A ramp-up in starts will accompany further gains in the U.S. economy."

Mueller Industries, Inc. is a leading manufacturer of copper tube and fittings; brass and copper alloy rod, bar and shapes; aluminum and brass forgings; aluminum and copper impact extrusions; plastic fittings and valves; refrigeration valves and fittings; and fabricated tubular products. Mueller's operations are located throughout the United States and in Canada, Mexico, Great Britain, and China. Mueller's business is importantly linked to: (1) the construction of new homes; (2) the improvement and reconditioning of existing homes and structures; and (3) the commercial construction market that includes office buildings, factories, hotels, hospitals, etc.

#### MUELLER INDUSTRIES, INC. Reconciliation of Net Income as Reported to Pro Forma Without Gain on Sale of Plastic Fittings Manufacturing Assets and Impairment Charges (Unaudited)

Earnings attributable to normal operations without the gain on sale of plastic fittings manufacturing assets and impairment charges is a measurement not derived in accordance with generally accepted accounting principles (GAAP). Excluding the gain on sale of plastic fittings manufacturing assets and impairment charges is useful as it measures the operating results that are the outcome of daily operating decisions made in the normal course of business. Reconciliation of earnings attributable to normal operations without the gain on sale of plastic fittings manufacturing assets and impairment charges to net income as reported is as follows:
