Exhibit No. Description 99.1 Press release, dated October 20, 2015.

Mueller Industries, Inc. Reports Third Quarter 2015 Earnings

MEMPHIS, Tenn., October 20, 2015 -- Mueller Industries, Inc. (NYSE: MLI) announced today net income of \$17.8 million, or 31 cents per diluted share, for the third quarter of 2015. This compares to net income of \$23.8 million, or 42 cents per diluted share, during the third quarter of 2014. Net sales for the third quarter of 2015 were \$535.2 million compared with \$602.8 million for the same quarter of the prior year.

Both revenues and earnings in the third quarter of 2015 were impacted by lower copper prices and lower unit volume in the OEM Segment. The average price of copper was \$2.40 per pound in the third quarter of 2015 compared to \$3.16 per pound in the third quarter of 2014. During the third quarter of 2015, copper declined \$0.37 per pound, or 49 percent of the year-over-year decline.

The sharp decline of copper in the quarter put pressure on margins of our FIFO accounting businesses. OEM volumes in the US continued to be impacted by soft demand in the industrial segment and increased import competition due to the stronger dollar. OEM volumes in China were impacted by slowing demand due to general domestic economic conditions.

Financial and Operating Highlights for the third quarter of 2015:

- The impact of the copper decline represented \$63.3 million of the \$67.6 million reduction in net sales and \$13.5 million in lower gross margins.
- The effective tax rate for the quarter reflects a benefit of \$4.2 million related to a reduction to the Company's deferred tax liabilities.
- The rationalization of the UK copper tube business acquired in 2014 was completed during the quarter. All associated impairments and redundancy expenses are now complete.
- During the quarter we completed the acquisition of Great Lakes Copper and invested in a joint venture that acquired Tecumseh Products Company for a total cash investment of \$137.4 million.
- The Company recognized \$2.2 million in expenses related to transaction costs linked to the investment in Tecumseh Products Company in the final week of the quarter.
- Cash provided from operations in the quarter was \$78.3 million with the quarter end cash totaling \$220.7 million, or \$3.86 per share.
- Debt to total capitalization was 20.5 percent and the current ratio was 3.6 to 1.

Regarding the outlook, Greg Christopher, Mueller's CEO, said "Construction remains positive in both residential and non-residential segments and we expect this trend to continue. However, uncertainty in the industrial sectors looks to continue into the next few quarters." He adds, "We have completed the rationalizations of our Yorkshire and Howell acquisitions and we are pleased with their continuing improvement. Our balance sheet remains solid and cash remains strong after investing \$173.3 million in acquisitions and \$22.5 million in capital improvements year-to-date 2015."

Mueller Industries, Inc. is a an industrial manufacturer that specializes in copper and copper alloy manufacturing while also producing goods made from aluminum, steel, and plastics. It is headquartered in Memphis, Tennessee and comprises a network of operations in the United States, Canada, Mexico, Great Britain, and China. Its products include tubing, fittings, valves, vessels, and related items for plumbing and HVACR related piping systems, as well as rod, forgings, extrusions, and various components for OEM applications. Products are distributed into sectors such as building construction, appliance, defense, energy, and automotive.

Statements in this release that are not strictly historical may be "forward-looking" statements, which involve risks and uncertainties.
