#### Mueller Industries, Inc. Reports Fourth Quarter and Fiscal 2016 Earnings

MEMPHIS, Tenn., February 7, 2017 -- Mueller Industries, Inc. (NYSE: MLI) announced today that net income for the fourth quarter ending December 31, 2016 was \$17.3 million, or 30 cents per diluted share compared with net income of \$14.4 million, or 25 cents per diluted share in 2015. Net sales for the fourth quarter were \$472.2 million compared with \$472.0 million in the same quarter in 2015.

On a full year basis net income was \$99.7 million, or \$1.74 per diluted share on net sales of \$2.1 billion, compared with net income of \$87.9 million, or \$1.54 per diluted share on net sales of \$2.1 billion for 2015.

Financial and operating highlights for the fourth quarter:

- The average comex copper price rose 8.6 percent, or 19 cents per pound versus the same period in 2015. This resulted in an increase in net sales during the quarter of \$19.2 million from higher selling prices, which was largely offset by the impact of translating net sales of the Company's foreign operations to U.S. dollars.
- The Company recognized a pre-tax impairment charge of \$3.8 million related to certain manufacturing assets.
- The results include a net loss of \$1.2 million from Tecumseh Products, Co., an unconsolidated affiliate.
- The Company ended the year with \$351.3 million of cash on hand or \$6.12 per share.
- · At year end debt to total capitalization was 19.5 percent and the current ratio was 4.1 to 1.

On January 4, 2017, the Company announced a special dividend of \$8.00 per share. The distribution, payable on March 9, 2017, will return to the Company's stockholders significant value that has accumulated from recent years' operations.

Regarding the outlook, Greg Christopher, CEO of Mueller Industries said, "As we turn the corner to 2017 we are well positioned for growth. Of particular importance are the benefits we began to realize in the fourth quarter in our brass rod business from the completion of our multi-year modernization investment. This investment positions us well for the recovery of the industrial markets.

He added, "The new administration seems resolute in growing the economy by increasing manufacturing jobs and rebuilding our nation's infrastructure. This should bode well for overall growth in the U.S. GDP, and in particular should help maintain the positive momentum in the building construction markets. On the international front, demand remained weak in the fourth quarter and the strengthening of the dollar had an adverse translation effect on our earnings. We anticipate that conditions in our international markets will improve over time."

Mueller Industries, Inc. is an industrial manufacturer that specializes in copper and copper alloy manufacturing while also producing goods made from aluminum, steel, and plastics. It is headquartered in Memphis, Tennessee and comprises a network of operations in the United States, Canada, Mexico, Great Britain, South Korea, and China. Its products include tubing, fittings, valves, vessels, and related items for plumbing and HVACR related piping systems, as well as rod, forgings, extrusions, and various components for OEM applications. Products are distributed into sectors such as building construction, appliance, defense, energy, and automotive.
